

Tuscany Hurricane and Storm Preparation for Pool Area

REMOVING POOL FURNITURE

DO NOT STACK BEACH FURNITURE ON TOP OF EACH OTHER.

Stacking damages the seating area. Beach furniture should NOT be stacked on top of one another.

Lounge chairs should be moved into these three locations:

1. Open space in the exercise room.
2. In the walk area in the beach storage room.
3. In the open area of the back building stairwell.

If there is not enough room in these three locations, then the remaining lounge chairs can be moved into the lobby.

4. All chairs, umbrellas, small side tables, footstools, and large tables should be moved into the lobby. Get residents or owners to help if needed. **DO NOT STACK FURNITURE**

SHUTTING DOWN POOL EQUIPMENT

TURN OFF ALL POOL CIRCUIT BREAKERS:

Open the gray circuit breaker box door at the end of the pool VAC PAC housing covers across from the ladies' pool restroom.

TURN ALL CIRCUIT BREAKERS OFF.

Nothing else needs to be turned off, except the circuit breakers in the electrical box.

TO OPEN CIRCUIT BREAKER BOX, pull forward the small "catch" at the outside bottom right corner, pull the breaker box door forward and down, and it should open. Close the breaker box door when done.

CALL LARRY STAUFFER AT 937-776-2970 with any questions.

Thank you!
